

EFF STATEMENT ON SNOW IN GAUTENG AND OTHER SURROUNDING AREAS

Monday, 10 July 2023

The Economic Freedom Fighters (EFF) notes the snowfall in Gauteng and surrounding areas. This unusual weather last happened in 2012.

While we acknowledge the awe that the snow brings to many, in the interest of safety, we call on motorists and pedestrians to exercise caution as the road conditions are hazardous.

Furthermore, the impact of snowfall and cold temperatures on vulnerable individuals, including the homeless, shack dwellers and other destitute people can be deadly.

Ideally, while we should implore the government to take immediate action to ensure the safety of the destitute, we have come to witness 29 years of incapacity from the state.

However, the EFF has proven its capacity, since its inception in July 2013, to assist the destitute with whatever resources it has at its disposal. Today is no exception: all our structures and public representatives in affected areas are directed to mobilise resources available to provide aid and relief to the destitute.
