

EFF WISHES THE MATRIC CLASS OF 2023 THE BEST IN THE UPCOMING FINAL EXAMINATIONS

Tuesday, 24 October 2023

The Economic Freedom Fighters (EFF) extends its best wishes to all the Grade 12 learners who will sit for their final examination. This is a pivotal, yet difficult, time for the learners as they prepare to complete their secondary schooling education.

Given the rise in depression and other mental-health issues among children in our society, the EFF urges parents, faith based and spiritual groupings, and all concerned parties in South Africa to provide unwavering support to all matriculants during this challenging period, so that they can perform to their full potential.

Despite the challenges of load shedding, dilapidated and overcrowded classrooms, lack of access to decent drinking water and sanitation in schools, we encourage the Matric class of 2023 to continue studying hard and make us proud by unleashing their true potential and excelling in their exams. We hope that all your hard work pays off and that you reap the reward of great results at the end of this year.

The EFF also exhorts the class of 2023 to conduct themselves appropriately and refrain from practises that could jeopardise their performance on exams and compromise their future education and training aspirations. The struggle for free, quality higher education continues and shall be realised through your hard work and determination.
