

EFF CONDEMNS HARRY WINDSOR FOR HIS BOASTFUL COMMENTS REGARDING THE WAR CRIMES HE COMMITTED IN AFGHANISTAN

Saturday, 07 January 2022

The Economic Freedom Fighters (EFF) condemns in the harshest terms the reckless, insensitive and inhumane comments made by member of the British Royal Family, Harry Windsor who has boasted that he killed 25-people in the fabricated war on terror in Afghanistan.

In his personal memoirs which confirm the inherent genocidal mania which characterises the colonial British Family, Harry boasts of killing human beings in Afghanistan as if he was removing “chess pieces”, glorifying murder and reawakening the painful scars of the period of an unjustifiable war. The war in the Middle-East which was framed as one against nuclear weapons remains unjustified, because no weapons of mass-destruction or terror were ever found in the region. It was a war to destabilise the political system in the Middle-East in order to extract their mineral wealth namely in this instance, oil.

Harry’s gleeful reflections on his war crimes, is nothing but the arrogance of a genocidal murderer, who finds joy in the senseless killing of people in order to further the imperialist agenda of stealing the wealth of third-world nations. It is more alarming that the days in which Harry claims to have murdered 25-people is cited as a period that was not characterised by conflict, meaning it is more likely that the attention-seeking murderer killed innocent civilians.

To Harry, those that he killed were not people, they were not human beings and were mere chess pieces in what he regarded a game. This is the hallmark of colonial logic, which underpinned the conquest of native people, their genocide and the dispossession of their land. Native people, in Harry’s colonial mind do not deserve to

be regarded as human beings because they are framed outside the white-delusion of what it means to be a human being.

It is logic such as this that rationalised the genocide of the native Red-Indians in America, the colonial conquest of Africa and the horrific slave trade which saw the displacement of Africans by ship into forced labour and abuse across the world. It is the logic of Harry that forms the basis of the killing of African-Americans by police in the United States, and was the foundation of the most intricate anti-black system known to mankind, Apartheid.

In his memoirs, Harry has confirmed what the EFF has long asserted, that the British Royal Family as an institution is racist to the core. The EFF calls for the United Nations (UN) and the International Criminal Court (ICC) to commence an investigation into the war crimes committed not only by Harry, but by the United Kingdom and the United States of America in Afghanistan and across the Middle East.

Bloodthirsty colonialists see it fit to brag about the genocides they have committed because they know that there are no consequences for killing those that white history regards as sub-human. The whole progressive world must unite in condemning this sadistic behaviour.
