

EFF WELCOMES THE APPOINTMENT OF COMMISSAR THEMBI MSANE AS MMC FOR WATER, SANITATION, AND ENERGY IN THE CITY OF EKURHULENI

Monday, 09 October 2023.

The Economic Freedom Fighters (EFF) takes this moment to welcome the well-deserved appointment of Commissar Thembi Msane as the Member of the Mayoral Committee (MMC) for Water, Sanitation, and Energy in the City of Ekurhuleni.

Msane's journey into politics is rooted in her upbringing in the politically vibrant community of Katlehong. While her involvement with the EFF represents her first formal participation in the political landscape, she has been a dedicated servant of our movement, consistently advocating for the betterment of the lives of ordinary South Africans.

Msane has a long and commendable history of service within our organisation, dating back to our inception in 2013 when she became the KwaZulu-Natal Provincial Coordinator. Her dedication and commitment to the ideals of economic freedom and social justice have been consistent since then and as a result, she was elected into our Central Command Team (CCT).

In the realm of governance, Msane has been an invaluable asset to our movement. She has been deployed to the KwaZulu-Natal Provincial Legislature, where she diligently represented the interests of our people, and subsequently, to the National Assembly.

Furthermore, Msane's academic achievements also stand as a testament to her commitment to knowledge and excellence. She holds a Postgraduate Diploma in Public Studies and African Policy from the University of Johannesburg, which has undoubtedly enriched her ability to contribute meaningfully to public service.

In her professional capacity, Msane has demonstrated remarkable competence and leadership. She has worked as a site engineer and site agent in numerous construction companies, including Aveng Grinaker-LTA and Steffanutti Stocks, where she has been involved in various construction projects. Her experience in this sector has equipped her with the skills necessary to address critical issues related to water, sanitation, and energy infrastructure.

As the EFF, we have no doubt that Msane will bring her dedication, expertise, and passion for service to her role as MMC for Water, Sanitation, and Energy in the City of Ekurhuleni. Her appointment will be a worthy addition in Ekurhuleni where the EFF has made remarkable progress in improving the finances of the municipality and providing service delivery.

We are, therefore, confident that Msane will work tirelessly to address the pressing challenges and contribute significantly to the improvement of the lives of the residents of Ekurhuleni.
