

ECONOMIC FREEDOM FIGHTERS STATEMENT ON PRESIDENT LULA DA SILVA BRAZIL'S PRESIDENTIAL ELECTIONS VICTORY!

Monday, 31 October 2022

The Economic Freedom Fighters celebrates President Lula Da Silva's victory in the 2022 Brazil's Presidential Elections. We send our best wishes to President Lula and the people of Brazil for resisting and rejecting puppets of Western imperialism and re-electing a progressive President, who was unfairly and unjustly persecuted by enemies of progress and prosperity. The victory of President Lula is a demonstration that with sound political consciousness, the people always become their own liberators, and the people of Brazil have liberated themselves from a right wing, Fascist puppet of imperialism whose decisions, particularly his COVID-19 denialism, have costed the lives of many Brazilians.

President Lula is very important in the lives of ordinary Brazilians because his policies and decisive political guidance made Brazil not to be the most unequal society in the world and uplifted the livelihoods of ordinary people. When President Lula was President of Brazil between 2003 and 2010, he introduced a comprehensive social protection system called Bolsa Familia, which primarily led to the reduction of absolute poverty and inequalities which had bedevilled Brazil for centuries of neo-colonial rule and mismanagement. During his first Presidency, President Lula promoted and actively partook in the promotion of South to South global cooperations and relationships. During President Lula's leadership, Brazil was a dependable, consistent and useful participant in all BRICS platforms, agreements and activities.

It is primarily President Lula's progressive domestic and international politics and policies that led to his persecution and wrongful arrest because that's how colonial and Neo-colonial forces suppress dissent from progressive forces all over the world. We embrace and celebrate

the reality that majority of Brazilians have rejected the manipulation of the Justice system and re-elected President Lula to lead them towards prosperity even after the wrongful imprisonment. The resilience of President Lula and the people of Brazil is inspirational and will forever urge all progressive forces in the world to fight on even against manipulated adversity.

We in the global South welcome and celebrate the election of President Lula Da Silva as President of Brazil and looking forward to Brazil's reinvigorated participation in BRICS. We also are looking forward to Brazil's rejection of an imperialist agenda that seek to drive a homogeneous and singular false perspective on the developments in Russia and Ukraine. We are more than confident that under President Lula, Brazil will not be used as a weapon of American and European imperialism which directs countries to act as unquestioning instruments of their wrong and misdirected foreign policy approach on the Russia/Ukraine conflict. We know that President Lula will reject the attempts of the War Alliance of NATO (North Atlantic Treaty Organisation) to dominate all parts of the world.

In their re-election of President Lula, the people of Brazil have demonstrated that a people with sound political consciousness, will always and forever reject Western Imperialism and its puppets. Viva President Lula!
